Cost Center Operating Report (CCOR) User Guide

Log In to SAP Fiori

Step 1: Log into MySodexo and click on SAP Fiori under 'Other Applications' (it may not be the 1st option listed)

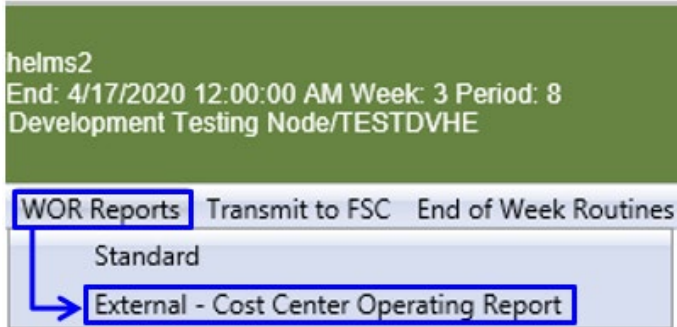

- **Note:** If you do not have access to Fiori, a window will open displaying contact information for each Fiori application.

Step 2: Choose the tile for Cost Center Operating Report

Or UFS users can access CCOR by clicking on the link under 'WOR Reports':

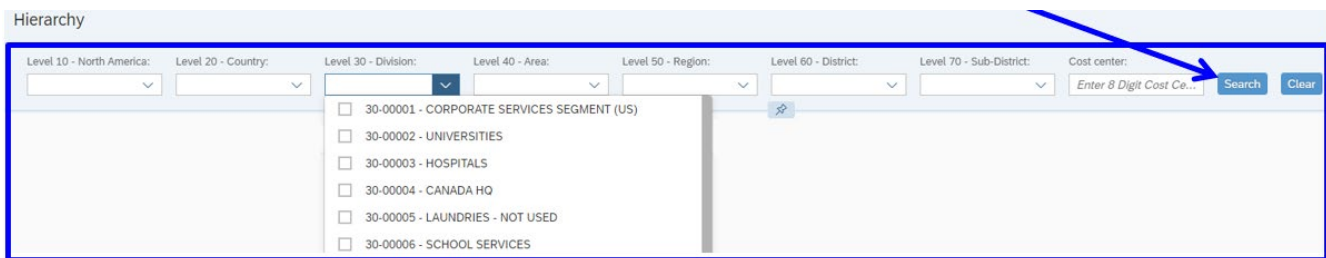

The Hierarchy screen will display. Enter specific hierarchy criteria or expand the hierarchy node and choose from the list.

The back arrow will return you to the screen with the CCOR tile on the Fiori landing page

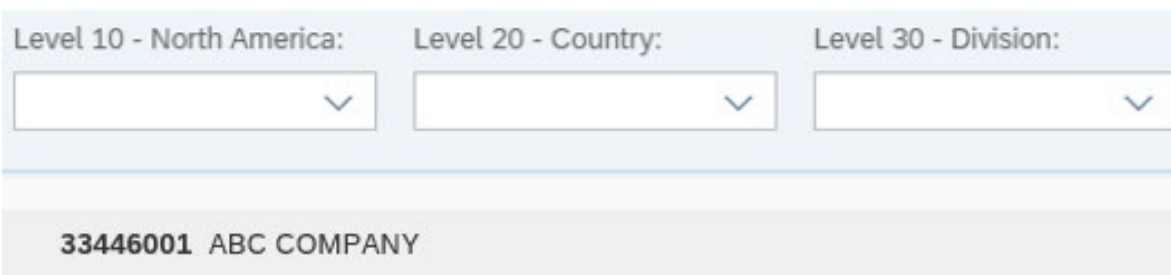

Enter specific hierarchy criteria in the necessary fields and choose Search

Or expand the hierarchy node and choose from the list

The searched node or cost center will display below the hierarchy fields. Select the node or cost center and the screen will split to show report options on the right.

- Choose the desired financial period from the drop down
- Choose the desired report from the drop down
- Check the box if desired report should be at main-loc/site level vs the individual cost center
- Once the options are chosen, click Go

Revenues and Raw Material Costs expanded to show totals at Cost Center level

- Revenues expanded shows 3 separate cost centers that roll up to the total of \$112,403.45
- Raw Material Costs of \$2,001.07 comes from only the 001 cost center
- Similar to the non-roll up report above, the arrows can be expanded further to view more detail down to the individual transaction level. For example, the 001 cost center under Raw Material Costs is further broken out by Perishable, Non-Perishable and Other. Click those descriptions to drill down to individual GL account, doc type and transaction level.

Additional Information:

- CCOR is on demand real-time. Once a transaction posts in SAP, it will be immediately reflected in CCOR. This includes transactions like a new equipment purchase - once the asset is setup in SAP, depreciation expense will increase to reflect the addition of the new asset.
- UFS transmissions without errors will post to SAP in approx. 1 hour, at which time it will be reflected in CCOR.
- Some of the estimates provided include depreciation and labor expense.
- Estimates will post daily as a weekly expense amount.

The functionality and procedure for running a report is the same for all available reports. See below for further details and differences with the remaining reports.
