

Error Occurred While Processing Request

Are you experiencing “**Error Occurred While Processing Request**” errors when trying to access modules in Web UFS? To avoid this error, after clicking to **launch** UFS, wait until the header information has loaded into the green banner area at the top of your screen.

This information includes:

- ▶ Your User ID
- ▶ Week End information
- ▶ Node ID information

After the header information has loaded, you are clear to access any of the module headings.

Technical questions related to UFS?
