

Statistics Have Not Been Entered Error

When doing a New Week Setup in Web UFS, you may receive the message **Statistics have not been entered** even though you have entered them. This indicates that a statistic marked as **Req.** was left blank. To verify/correct this, go back into the Statistics Entry record and make sure that ALL the required fields have a value.

The system will mark the entry as completed and allow you to transmit as long as you input data, but does not check if all the required lines are completed until you attempt a NWS. As in the example below, a required value was either missed or put into the field above or below the required statistic. It's an easy mistake to make, BUT, also an easy one to correct.

Statistics ID	Statistics Description	Required	Statistics Value
99995299	MPR 5299		<input type="text"/>
99997345	NUMBER OF CATERED EVENTS		7.0000
99997305	NUMBER OF OPERATING DAYS	Req.	<input type="text"/>
99993549	OFFICE SUPPLIES & EX		1.00
99993561	PACKAGING SUPPLIES		1.00
99997145	POPULATION	Req.	1.0000
99997149	POPULATION-MONTHLY		<input type="text"/>
99997610	ROOM COUNT		<input type="text"/>
99994189	SALES - SUSHI TAXABLE SALES		<input type="text"/>
