User Unable to Enter the New Cashier Number on the Cash Entry

PROBLEM

User is unable to enter in the new cashier number in Cash Entry that was just set up.

SOLUTION

When a new cashier number is set up, and a space is entered in error after the first or last name, you are unable to enter the cashier number when in Cash Entry.

1. Go back into **Revenues** > **Cash** > **Cash Setup** > **Cashier.**
2. Highlight the cashier in issue and click **Edit**.
3. Delete the name and reenter it, making sure you do not put any spaces before or after the names
4. Click on **Save**.
5. Click on **OK** for the confirmation message.
6. You will now be able to use the cashier in Cash Entry.
